

# RACK MOUNT SUPPRESSION TO PROTECT SERVERS FROM FIRE

Self-Contained Plug & Play, In-Rack Suppression  
Unit With Eco-Friendly Agent

## Honeywell Rack Suppression Unit

The Honeywell Rack Mount Unit offers an end-to-end and rack mountable Fire Detection & Suppression System that is ideal in its design and performance metrics, for the protection of server racks from fire threats. By being compatible with 19" rack mounts, and therefore adjacent to possible sources fires in server racks, this solution ensures rapid detection and suppression for minimal equipment losses and downtime.

The Honeywell Rack Mount Unit uses the clean, environmentally conscious FK-5-1-12 suppression agent that leaves no residue harmful to the environment and humans.

### AVAILABLE VARIANTS

RUS2U15 - 1.5 Cubic Mt. Coverage

RUS2U30 - 3 Cubic Mt. Coverage

**Honeywell**

## FEATURES

Monitored Alarm/  
Fault Circuits

Visual Alarm  
and Fault Status  
Indicators

24 Hour  
Battery Backup

LCD Display,  
Door Open Alarm

BMS Integration  
modbus  
gateway inbuilt

Single Cylinder  
600 x 600 x 3U Unit

Dual Cylinder  
800 x 600 x 3U Unit

CE Certified

Provision of External  
Detector Connection

## BENEFITS

Plug  
& Play  
Solution

Environmentally  
Friendly  
FK-5-1-12 Agent

Uses Optical  
Smoke Detectors  
In Cross Zoning

Includes Cylinder,  
Actuator, Nozzle  
& Releasing Circuit

## APPLICATION AREAS

Datacenters

Server Rooms

Network Cabinets

PLC Panel

Telecom Equipment

19 Inch Rack Units
