

SMART AI SUPERVISION

Edge analytics based video surveillance

Operated conveniently with WiFi, the Smart AI Supervision provides proactive surveillance. Powered by edge-based analytics, it can intelligently detect suspicious activities and send instant alerts from a dedicated app. This device provides the flexibility to customize its features to suit your needs. As a subscription-based model, you pay only for the features you choose. With adaptable features, it is ideal for the ever-changing requirements of multiple industries like retail, manufacturing, hospitality, or banks.
