by Honeywell

# FORGETTING TO TURN OFF YOUR AC INCREASES YOUR POWER BILL

In a mid-sized commercial office, AC usage comprises 50-70% of the electricity bill. Most of these offices do not use centralized HVAC, but use cassette, split and window ACs instead. While these are easy to procure and install, using them takes a more mindful approach and constant intervention. So, every time you forget to switch off the AC, you run the risk of getting a steep electricity bill that adds up to a larger sum annually.

## UNCONTROLLED AC USAGE MEANS

Higher power consumption

Electricity wastage

Inefficient cooling

Reduced life of the AC

CO<sub>2</sub>

Environmental harm

*\*Disclaimer: The actual savings will vary on the basis of AC type, tonnage and usage patterns.*

# GREATER SAVINGS COME WITH SMARTER AC CONTROL

## Infrared AC Controller

Packed with intelligent sensors and engineered with perfection for precise operation, the infrared AC controller automatically seeks out a more intuitive way to save power in your living and work spaces. It does this by turning the air conditioner on or off depending upon the occupancy in the room. This reduces the AC wear and tear, leading to lower maintenance costs with decreased energy consumption that positively impacts the environment. Now you can enjoy an increased AC life and save money by reducing your AC electricity bills.

Battery  
operated

Infrared  
based

Works with remote  
controlled ACs

Lower AC  
maintenance cost

Improved  
AC life

Positive impact on  
the environment

# THE EASIEST INSTALLATION TO SAVE ON YOUR POWER BILLS

## Step 1

Easily mount the infrared AC controller on your wall by simply using double-sided tape or attaching it with screws

## Step 2

Program the device with the ON and OFF codes of the AC remote.

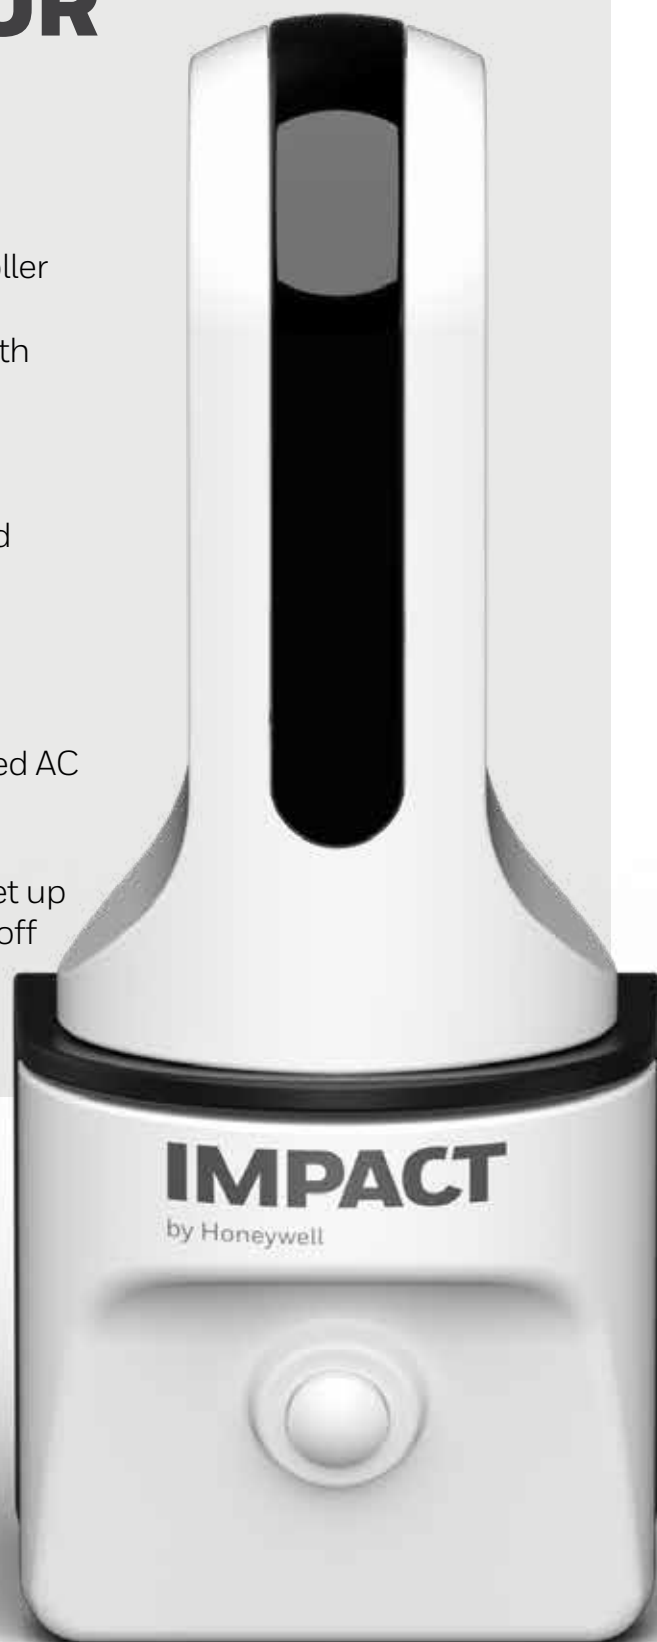

## Step 3

Switch it on and it will seamlessly integrate with your remote-controlled AC

## Step 4

Your infrared AC controller is now set up to automatically turn your AC on or off

# A PERFECT FIT FOR SMALL AND MEDIUM SPACES

## APPLICATION AREAS

Banks

Offices

Hotels

Shops

Restaurants

Residences
