HEI SERIES
HEICC-2301T

1080p 30x Zoom Explosion-Proof IP Camera

Honeywell's latest explosion-protected and flameproof network camera is a good fit for onshore, offshore, marine, and heavy industrial installations in hazardous and challenging environments. The camera features a 316L stainless steel housing certified for hazardous areas according to IECEx. The housing prevents any interior sparks or explosions from escaping and igniting the gases or dust in the surrounding air. The HEICC-2301T camera provide extremely crisp video with up to 2 million effective pixels, 30x optical zoom, and True Day/Night WDR for continuous surveillance in both hazardous and safe area applications.This product comply with the Essential Health and Safety Requirements relating to the design and construction of products intended for use in potentially explosive atmospheres.

Explosion-Proof Certification

- IECEx certified with AISI 316L stainless steel construction
- Certifications for use in Gas Zone 1 & 2 (Class IIA, IIB, IIC, T1-T6 group) and Dust Zone 21 & 22
- Certified temperature for explosion-proof applications:
  -40°C to 60°C (–40°F to 140°F)
- M25×1.5 threaded hole for use of cable glands or conduit
- IP68 rating guarantees complete protection against harsh weather
- This product is of flameproof protection type and it consists of sunshade and flame proof enclosure.

Flexible Surveillance Solution

- 1080p 60 fps and 30x optical zoom lens for the flexibility to clearly view the target area with desired depth of view
- H.265, H.264 and MJPEG codec, triple stream support
- Support for unicast and multicast mode for streaming
- ONVIF Profile S, G, Q and T compliant
- Supports face detection, real-time intrusion detection and unauthorized loitering detection* analytics
- Security features include individual signed certificates and data encryption

Easy to Install and Use

- 100~240V AC power input
- Built-in heater
- Integrated sunshield, wiper and optional washer system operated from the web client or special system preset
- 10 m multi-polar cable with barrier cable gland (IECEx certified) and cable tail with conduit cable gland
- Wide range of mounting options
- Remote configuration, motorized zoom adjustments and auto focus through web client
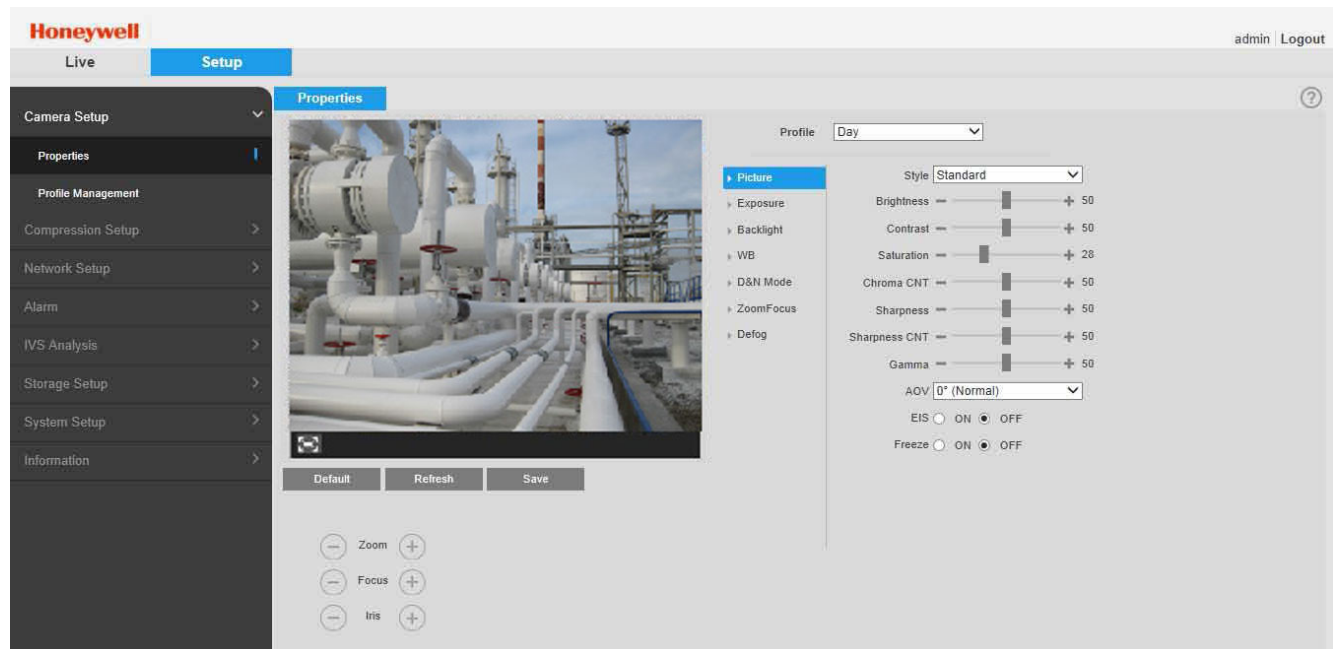

MARKET OPPORTUNITIES

The camera features stainless steel housing and offers full HD resolution image quality. They are ideally suited for video surveillance monitoring of onshore, offshore, marine, and heavy industrial environments, such as the oil and gas industries, as well as dusty environments, such as the paper and textile industries.

FEATURES AND BENEFITS

- 4.5–135 mm, F1.6–F4.4, 30x optical zoom lens
- 1/2.8" progressive scan image sensor
- Excellent low light performance with down to 0.0005 lux B/W

- Up to 50/60 fps primary stream. Up to 25/30 fps secondary streams
- Up to triple stream support
- Electronic image stabilizer (EIS)
- True WDR: 120 dB

- Multiple, selectable compression formats (H.265/H.264/MJPEG)
- Support for Face detection, ADPRO IntrusionTrace* and ADPRO LoiterTrace*
- Tempered glass

- Global language support with web GUI and online help in 15 languages
- Installation environment temperature: –40°C to 60°C (–40°F to 140°F)
- 100~240V AC power input

- Cyber security hardware chipset built-in
- ONVIF Profile S, G, Q and T compliant
- Water resistant IP68 ingress protection rating

1. Micro SD Card functionality is supported and optional with pre-fitted card from factory only. Micro SD card failure is not covered under standard warranty
2. ADPRO® IntrusionTrace™ and ADPRO LoiterTrace™ are Xtralis® video content analytics products. Additional license purchase(s) required. See http://www.xtralis.com/analytics for more information.
3. Some development may be required in specific user cases to support some of these protocols in the field as they mature over time.

RECOMMENDED ACCESSORIES

SYSTEM INTEGRATION	
ONVIF support and open API software integration. Refer to www.onvif.org for the ONVIF specification and the Honeywell Open Technology Alliance website (http://www.security.honeywell.com/hota/) to learn more about our open and integrated solutions.	

HONEYWELL DEVICE INTEGRATION	
MAXPRO® NVR FAMILY	Entry to Enterprise Level Network Video Recorders (version 6.3 and greater)
MAXPRO® VMS FAMILY	Entry to Enterprise Level Network Video VMS (version R630 and greater)

ACCESSORIES	
HEPHE-WM	316L Stainless Steel Wall Mount Bracket
HEPHE-CM	316L Stainless Steel Corner Mount Bracket[1]
HEPHE-PM	316L Stainless Steel Pole Mount Bracket[1]
HEIGLAND	Cable Gland
HEI-SD	Micro SD card[2]

Note: The new HEI Series accessories are not compatible with old Honeywell Explosion Proof cameras. Accessories to be ordered separately with camera
1. To be considered in addition to HEPHE-WM
2. To be ordered along with camera, can not be ordered separately
